Summary

Aspiring Senior Full Stack Developer with over 10 years of experience specializing in **Java, Spring Boot, Angular, ReactJS, NodeJS**, and cloud technologies. Skilled in designing and implementing scalable architectures with a focus on performance and user experience. Currently developing proficiency in **Kafka, MongoDB**, and **Saga patterns**. Passionate about exploring emerging technologies, including **Go, Flutter**, and **AI Chatbots (RAG)**, while continuously enhancing technical expertise and delivering innovative solutions.

Experience

Allianz Technology (Thailand) Co., Ltd. May 2021 - Present
Full Stack Developer Bangkok

- Designed, implemented, and maintained scalable insurance applications using **microservices architecture** and migrated systems to containerized environments, significantly improving deployment efficiency and scalability.
- Led the integration of secure authentication processes, including **Keycloak** with SMS OTP services, enhancing user experience and system security in the insurance domain.
- Modernized legacy systems by transitioning to **Maven (Java 8)** with **CI/CD pipelines**, reducing development time by 90% while ensuring compatibility with modern cloud environments.

Siam Pharmaceutical Co., Ltd. December 2018 - May 2021
Software Engineer Bangkok

- Developed and deployed containerized applications using **Spring Boot** and **ReactJS**, introducing **Liquibase** for streamlined database version control and deployment.
- Engineered scalable authentication systems integrated with **Keycloak** and **AzureAD**, enhancing security and user management across web applications.
- Optimized existing mobile application performance, improving sync operation speeds by 50%, while mentoring team members and establishing project structures for efficient development.

Genesis Technology Co., Ltd. January 2018 - December 2018
Senior Software Engineer Bangkok

- Designed and developed web crawlers to automate product data harvesting, improving information retrieval and comparison processes for e-commerce projects.
- Developed the **SODOAN** marketing platform, integrating optimized search functionalities and secure payment processing with **PayPal Gateway**.

Avalant Co., Ltd. March 2015 - December 2017
Software Developer Bangkok

- Designed and implemented **IBM BPM** solutions and RESTful/SOAP integrations for financial systems, enhancing business workflows and internal service efficiency.
- Developed front-end dashboards and hybrid mobile applications using **Angular, Ionic**, and **Bootstrap**, improving user experience and administrative functionality.
- Collaborated on critical projects, including BPM migrations, production support, and enhancements for major financial institutions, ensuring smooth transitions and defect resolution.

Education

Burapha University, Chanthaburi 2011 - 2015
B.A. major in Information System Bachelor's degree

Singsamut School 2007 - 2010
High School
